## BATTLE WITH NATIVES

Filipinos Have Not Ceased Fighting In All the Provinces.

AMNESTY WILL EXPIRE MAY DAY.

Aguinaldo Asked to Help Accomplish Surrender of a Filipino General. Sentence Imposed on One Of Commissary Thieves.

Manilla, April 25.—Captain James H. McRae, with companies G and F of the Third Infantry, recently encountered a force of natives near Norzagaray, province of Bulacan, killed five of them and captured 25 rifles. Soon afterward General Morres, with six men, came to Norzagaray and surrendered. Later General Morales surrendered.

Many surrenders are expected before May 1, when the limit of the amnesty proclamation will expire.

Commissary Sergeant John Meston, charged with complicity in the commissary frauds and convicted April 15, has been sentenced to be dishonorably discharged and to two years' imprisonment. The sentence of others similarly implicated probably will be greater than given Meston.

Lieutenant William Patterson of the coast artillery, formerly a Philadelphia lawyer, is to be tried by court-martial for misappropriating the funds of the company.

Reports from Legaspi, in the province of Albay, say the administrative features of Albay province are backward. The military situation is improving slowly. General Belarmanio is still operating with 200 rifles. The Federalists have requested Aguinaldo's assistance in securing his surrender. There are 1,000 men of the Ninth (colored) cavalry and Forty-seventh regiment volunteer infantry in Albay. The new Twenty-sixth regiment (regulars) is on its way there. There are no American schools there and few municipal governments. Although unsettled, the sentiment is strong for peace and civil government.

Sentry Sir Michael.

London, April 25.—Replying to a numerous and influential deputation representing coal owners, miners, shipowners and merchants, assembled to protest against the export duty on coal, the chancellor of the exchequer, Sir Michael Hicks-Beach, declared that while he had no intention of dropping the coal tax the representations of the deputation would be carefully considered by himself and his colleagues. He had already admitted that there ought to be some exemption in the case of existing contracts, and suggested that those interested appoint a small committee to discuss the question with himself and the customs authorities. On the second reading of the budget bill he ought to be in a position to announce the terms upon which exemption would be given.

Chinese Get Behind the Wall.

Berlin, April 25.—A correspondent cabling from Cheng Ting, near Peking, says: "The German and French expedition is approaching the front of the Chinese army, which is apparently 25,000 strong and well entrenched in three positions. The Germans marched over difficult mountain passes to the gate of the great wall at Ning Tui Kan. The enemy appears indisposed to offer resistance, and its retreat behind the wall is expected."

Pugs Accused of Manslaughter.

London, April 25.—Jack Roberts, who was pitted against Billy Smith in the fight before the National Sporting club Monday that resulted in Smith's death, and Bethuson, the manager of the club, together with the referee, timekeeper and four seconds, were arraigned in the Bow street police court on the charge of manslaughter. The magistrate remanded the accused on their own recognizances in £100 each.

Tolstoi's Portrait Inhibited.

London, April 25.—A dispatch from St. Petersburg says the Russian government has forbidden the exhibition at Moscow of Repine's life-size portrait of Count Leo Tolstoi, representing him in the costume of a peasant and barefooted. When the portrait was recently exhibited at St. Petersburg the public paid unusual tributes to the picture and surrounded it with a great many flowers.

Porto Ricans Don't Like Ecuador.

Colon, Colombia, April 25.—Contractor McDonald's efforts to induce Porto Ricans to emigrate to Ecuador have been unsuccessful. The chartered steamer Catania has arrived here with only 90 Porto Ricans on board. Proposed trips on the same errand have been abandoned.

San Francisco, April 25.—The Nippon Maru from Hong Kong and Yokohama has been sighted. Minister Conger is supposed to be a passenger. The steamer will go to quarantine before she goes to her dock.

## EMPLOYERS RESPONSIBILITY.

Decision in Railroad Case Affecting Fellow Servant Risks.

St. Louis, April 25.—Because an employee remains in the employ of a company when he well knows that a risk is assumed by so doing does not relieve the employer of responsibility if accident occurs. This is the gist of an opinion handed down by the United States court of appeals in the case of the Southern Pacific company against Katie Yeargin.

Katie Yeargin sought to recover damages for the death of her husband, who was an engineer on the Southern Pacific railroad until killed in 1899 in collision with a "helper engine."

Judgment in the lower court was given for Mrs. Yeargin, and from this the company appealed on a writ of error. One of the instructions which the defendant asked the judge to give the jury was that Schriver, engineer of the "helper," was a fellow servant, and if it was proven that his fault caused the injury, the plaintiff could not recover. The lower court refused.

Judge Amos Thayer, who wrote the opinion of the appellate court, held that the lower court was correct. The trial court had refused to instruct the jury that if Yeargin knew it was the practice of the company to use only an ordinary lantern on the rear of this helper engine when it was running backwards he with this knowledge assumed the risk incident to it. Judge Thayer said that if such was upheld it would enable employers to avoid performance of the duty they owe their employees to exercise reasonable care in providing tools, machinery and appliances ordinarily safe and adapted to the use to which they are applied.

Hayes Hanged.

Unlontown, Pa., April 25.—Mark Thomas Hayes was hanged here Thursday. He died game and walked to the scaffold unflinchingly. He was pronounced dead in 10 minutes. Hayes had nothing whatever to say and refused religious consolation. His crime has frequently been referred to as "the murder without a motive," as Hayes and his victim, William Lowdon, had been neighbors and close friends for years. The night of July 3, 1899, Hayes, Lowdon and some others were carousing at the home of William Burns, near Dunbar. About 3 a. m. a quarrel arose between Hayes and Lowdon. Hayes went home, but soon returned with a shotgun, and with the words, "I will allow no man to call me a coward," shot Lowdon dead. Hayes afterward claimed that he had no intention of killing Lowdon, but was in the act of firing a Fourth of July salute when his gun was accidentally discharged. The plea of the defense was insanity and lack of motive for committing the crime.

Clara Kluge's Claim.

San Francisco, April 25.—Mrs. Clara Kluge-Sutro has secured from the representatives of the Adolph Sutro estate a recognition of the claims urged by her and her children, Adolph Sutro, Jr., aged 9, and Adolphine Sutro, aged 7 years. The settlement, which is on the basis of \$150,000, has been agreed upon. The woman claims to have been the contract wife of the late millionaire mayor. It is intimated that she may secure the famous Cliff House as her share of the estate. Before his death Sutro executed a deed conveying to these children real estate in this city which was then estimated to be worth \$50,000.

Assistant Postmaster Arrested.

Chattanooga, Tenn., April 25.—The arrest of Assistant Postmaster Charles H. Drexel at Tarpon Springs, Fla., is reported to the postoffice inspector's office here. It was reported that the safe had been blown open with dynamite and \$1,000 taken. Inspectors Berry and Bannerman after investigating charge Drexel with being short in his accounts to the extent of \$1,000, and with having dynamited the safe to cover his guilt. His mother is postmistress and his father is employed in the postoffice department at Washington City at present.

Newspaper Office "Pied."

Athens, Tenn., April 25.—The office of the McMinn Citizen was raided presumably by anti-temperance people. The editor, Walter Franklin, during the recent temperance fight in Athens, published strong editorials and news items in behalf of temperance. The presses were overturned and more or less dissembled, the type was scattered and some dumped into a stream of water in front of his building.

Reprieve Was a Forgery.

Clayton, N. M., April 25.—Governor Otero says the message received by the sheriff of this county signed "Otero," saying that President McKinley had granted Thomas Ketchum, alias "Black Jack," to be hanged Friday, a respite until May 25, was a forgery. The governor denies having sent any message to the sheriff. The sheriff has doubled his force since the false telegram was received.

## BORDA ANSWERS ROWE

Denies That the Island of Porto Rico Is Teeming With Prosperity.

FATHERS SELL THEIR DAUGHTERS.

Claimed That Conditions are Worse Than When the Island Was Under Spanish Rule—retorts Against the Hollander Revenue Law.

New York, April 25.—When Dr. L. S. Rowe of the Porto Rican code commission reached here several days ago he said in an interview that conditions on the island had been much improved despite statements made by a small element of the island in a spirit of pessimism. To this assertion of Dr. Rowe exception is taken by Wenceslao Borda, Jr., a member of the commission chosen by the Planters', Bankers and Merchants' association of Porto Rico to present to the United States government the ideas of that organization regarding the state of affairs on the island, particularly in connection with Hollander revenue bill.

"Our people are starving," said Mr. Borda in an interview, "and the island is in a worse condition under the rule of Governor Allen than it ever was before, even when Spain held sway. So hopeless is the state of affairs that fathers sell their daughters to keep them from dying of hunger. These people who say the country is flourishing are the officeholders, representatives of that class of professional politicians into which Governor Allen has fallen—the lowest class of all the island's inhabitants. This tax law to which we object was framed by Professor Holland, a theorist, with no practical knowledge of Porto Rico. It was passed by the insular legislators a few minutes before they adjourned. Governor Allen signed the measure immediately, although he had a right to wait 10 days, which we, who objected to the law, had every reason to expect him to do. Meanwhile, sure that he would wait, we called a mass meeting of business men from all over the island. It was by that meeting that we were appointed commissioners. Those who appointed us represent 60 per cent of the money interests of all Porto Rico, and they are not politicians. The mission on which we have been sent here involves the life and death of our corporate success or demotion in Porto Rico."

Mr. Borda and his associate, Mr. Balbas, have filed 18 objections to the Hollander revenue law. Chiefly they protest against the provision taking away the right of redemption from the taxpayer who is delinquent for six months. They object, too, to the excise taxes, especially the one of 80 cents per gallon on rum. "Governor Allen answers this last protest of ours," said Mr. Borda, "by saying that the tax on rum in the United States is \$1.20, so we ought not to complain. He forgets that the rum industry here is only incidental, while with us it is the principal industry."

Cubans Call on the President.

Washington, April 25.—The Cuban delegates began their round of official visits and conferences Thursday, going to the war department at 11 o'clock for the first formal meeting with Secretary Root, and then being escorted by him to the White House for a meeting with the president. General Wood went to Secretary Root's office and was there when the visitors were shown in. The delegation called first at the office of Assistant Secretary Sanger, and then was shown into Mr. Root's private office by Colonel Sanger. Captain Sawtelle and Lieutenant Overton and Senor Gonzales, secretary to General Wood, were present during the conference at the war department. About an hour was consumed in discussion of Cuban affairs in the war department, when the delegation left for the White House. Secretary Root stated the discussion of Cuban affairs with the commission would be considered private, and no public statement would be made as to any propositions the Cubans might submit, or the reply that would be made to them by the president or the secretary of war.

Presidential Appointments.

Washington, April 25.—The president appointed Gordon Paddock of New York to be secretary of the United States legation at Seoul, Korea; Courtland K. Bolles of Pennsylvania to be consul at Kiel, Germany; Charles M. Dickinson to be United States agent at Sofia, Bulgaria; Andrew J. Cochran of Kentucky to be United States district judge, James H. Tinsley to be attorney and S. C. Sharp to be marshal for the eastern district of Kentucky. A long list of war appointments was promulgated.

Siegfried's Second Visit.

Washington, April 25.—The French ambassador called at the White House and introduced to the president M. Jules Siegfried, formerly minister of commerce, industry and the colonies in the Ribot cabinet and also an official of long service in the French senate and in the chamber of deputies. M. Siegfried's visit recalled the interesting fact that during his last visit to America, in 1861, he was received by President Lincoln and enjoyed a pleasant exchange of views with the president of that day.

## AN AGRICULTURAL GIANT.

Plow Trust to Make Everything From Hoes to Threshing Machines.

New York, April 25.—It is claimed here that the report from Chicago that plow manufacturers have decided to form a \$50,000,000 combination is only partly correct. Present plans, instead of being merely for a consolidation of the plow industry contemplate a consolidation which shall include every branch of farm machinery, with the exception of reapers and mowers. The reported capital of \$50,000,000 is said to be a minimum figure.

The company if organized will, it is said, be in a position to manufacture all kinds of farm implements from a hoe to a threshing machine, with the exception of mowers and reapers.

Among the largest concerns which are understood to favor the present plan are Deere & Co., Moline, Ill.; Parlin & Orendorff, Canton, Ill.; Rock Island Plow company, Rock Island, Ill.; Standard Harrow company, Utica, N. Y.; Syracuse Plow company, Syracuse; Empire Plow company, Cleveland, O.; Hensch, Dromgold & Co., York, Pa.; Aultman & Taylor Machinery company, Mansfield, O.; Stoddard Manufacturing company, Dayton, O.; Bissell Plow company, South Bend, Ind.; Morrison Manufacturing company, Fort Madison, Ia.; Buffalo Pitts company, Buffalo, N. Y.; O. S. Kelly company, Springfield, O.; Kansas City Hay Press company, Kansas City.

## THE RIGHTFUL HEIR.

Count Reinhold Inherits Estate of Woman Who Backed Kerly.

London, April 25.—The chancery court has decided that Count Reinhold Edward Moore von Rosen, residing in Stockholm as the eldest son of Count Carl von Rosen, formerly chamberlain of the king of Sweden and Norway, and his American wife, who was a Miss Moore, is the real count and rightful heir to the fortune left by Mrs. Clara Jessup Moore, his grandmother. From a statement of counsel it appeared that some ore in America represented himself to be Count Reinhold, asserting that the Stockholm claimant had been substituted by him for the Von Rosens. Justice Joyce found that the American claimant's representations were fraudulent. The inheritance amounts to £100,000.

Mrs. Moore was better known as Mrs. Bloomfield Moore, who financed Kerly, the Philadelphia inventor, who became famous through exploitation of a mysterious motor.

Manilla Ship Subsidy.

San Francisco, April 25.—Private advices to merchants state that the war department has under favorable consideration for definite action the plan for the establishment of an American line of steamers to Manilla proposed by the mercantile interests of this city. The proposition of the various commercial bodies here is that the government guarantee to any shipping firm establishing a line of steamers between San Francisco and the Philippines at least 2,000 tons of freight each month, to be delivered in the Philippine islands.

Submitted to Stockholders.

Boston, April 25.—The Chicago, Burlington and Quincy directors at a special meeting voted to submit to stockholders a proposition from the Great Northern and Northern Pacific railroads to take control of the Burlington. The offer for the Burlington stock is \$200 per share for not less than two-thirds of the whole amount, to be paid for in 4 per cent bonds of the two negotiating roads, the stockholders being given the option of taking part of the proceeds in cash.

Powder Mill Explosion.

Frankfort, Ky., April 25.—The three boilers of the Greisham electro-chemical works, near Greisham, exploded and the factory caught fire. Many persons are reported to have been killed and 140 injured. The explosion was audible here. The Frankfort fire engines, ladders and ambulances have gone to the scene of the disaster. The flames leaped across the river and burned several houses at Schwaneheim. It is thought the explosion occurred in the smokeless powder division.

Canada Lines Not Consolidating.

London, April 25.—The vice president of the Grand Trunk railway authorizes a denial of the report, telegraphed to New York from Montreal, that negotiations are on foot for the consolidation of the Canadian Pacific, the Grand Trunk railway and the Richlieu and Oregon Navigation Co.

## OHIO STILL GOING UP.

Flood Reaches Higher Stage Than Was Expected at Cincinnati.

RIVER MAY GO ABOVE SIXTY FEET

Mahoning River Breaks All Former Records—Mail Boats May Be Substituted For Hocking Valley Trains—In the Flooded Cities.

Cincinnati, April 25.—The flood situation in this part of the Ohio valley is a disappointment. It was not only expected that it would reach its limits here and up the valley Thursday but also that it would not exceed 58 feet at Cincinnati, or eight feet above the danger line. It passed the stage of 58 feet here Wednesday at midnight, and the conditions for almost 200 miles up the river are equally disappointing. It is feared that the new conditions may keep the river about stationary unless there should be a second flood. The worst conditions are reported at Huntington, Catlettsburg, Ironton and Portsmouth, and the smaller places in that district have reached the point of great distress.

The total rise of the Ohio here till 10 a. m. was 58.7. As the river is still rising as far up as Catlettsburg and as the Kanawha at Charleston is again rising, the inference is reasonable that the rise here cannot be checked before Friday, by which time it may reach a stage of 60 feet or over.

Contrary to expectations the Ohio river was still rising slowly at Ironton. The Olive hotel stands two feet in water, and probably a score of business houses have water on their floors to the depth of a foot or less. At least 1,000 men are out of work. Hanging Rock, three miles below, is badly inundated and all industry suspended, while Coal Grove, four miles above, is similarly situated, water standing all over the yards of the Yellow Poplar Lumber company's plant, where millions of feet of lumber are stacked.

Mahoning's High Mark.

Youngstown, O., April 25.—The Mahoning river has broken all records for high water, being 12 inches above the greatest flood ever known in the valley and still rising an inch an hour. Through the city the river is a mile wide and has swept away everything loose within reach. Pumps at the waterworks have been working under water, and if a break in the machinery occurs the city will be at the mercy of the elements. Firemen have been active with boats rescuing citizens from submerged dwellings. The Pennsylvania freight depot is entirely surrounded by water and traffic is blocked until the flood recedes. A washout occurred on the Erie between here and Sharon, and passenger trains are being run over the main line from Shenango to Leavittsburg.

Mississippi Rising.

Memphis, April 25.—The Mississippi river marks 28.8 on the gauge and is slowly rising. Weather bureau and rivermen predict a stage of 35 feet, or two feet over the danger line. Owing to the confinement of the flood water in the river by the levees protecting the St. Lawrence river basin, where the overplus formerly found an outlet, the levees between Memphis and the mouth of White river on both sides of the Mississippi will be severely tried if the water should be very high.

Still Rising at Louisville.

Louisville, April 25.—The river at Louisville at noon registered 29.5 in the canal, being 1.5 feet above the danger line. The river is still rising at about an inch an hour, but it is expected to come to a stand some time Friday afternoon or night. The river at Madison, Ind., is above the danger line and rising very slowly. The Kentucky river is falling all the way down.

Will Put on Mail Boats.

Washington, April 25.—All of the railroad service on the Hocking Valley railroad between Pomeroy and Gallipolis has been annulled on account of the floods, and the postoffice department has authorized the establishment of temporary steamboat mail service between these points.

Rains in West Virginia.

Huntington, W. Va., April 25.—The Ohio river is stationary at 57.4 feet. The weather is threatening. Heavy rains caused another rise in the Guyandotte, Twelve Pole and Big Sandy.

Shenango Subsidizing.

Sharon, Pa., April 25.—The Shenango river reached its highest stage and is receding. All danger from the flood has passed at this point.

Schooner Capsized.

Atlantic City, N. Y., April 25.—The three-masted schooner Emma C. Knowles from Charleston April 14, for Fall river loaded with lumber, capsized five miles off this city. There are no signs of her crew. She is drifting rapidly down the beach.

## **JUDGE COCHRAN.**

Irrespective of political affiliation, the people of Maysville and Mason County were glad to learn Thursday that President McKinley had appointed Hon. A. M. J. Cochran Judge of the United States Court for the Eastern district of Kentucky. Mr. Cochran is eminently fitted in every way for this high position, and the honor is indeed most worthily bestowed.

At one time during the spirited contest over the position, some of Mr. Cochran's friends almost gave up hope, and it did seem that the President would allow politics instead of merit to influence him in making his selection. But the matter has been settled at last, and, if reports are true, the President has all along intended to name Judge Cochran for the place.

Maysville rejoices in the honor so worthily bestowed. Judge Cochran will be an honor to the bench, as he has always been to the bar, as well as to his native city in all the walks of life.

MAYSVILLE, Ky., April 25.—The river at this point was still rising this morning, the gauge at 10 o'clock registering 56.5, a rise of over a foot last night being noted. Water is now over the larger portion of the city below the hill and has business completely paralyzed, as country people from the eastern end of the county cannot get into the city without great difficulty. The water ran into the shoe factory last night, thus compelling that institution to shut down. There is practically nothing for the workingman to do now save wait for the water to subside, which is causing much distress.

The above was sent out from here Thursday by the local correspondent of the Cincinnati Times-Star. The correspondent in question must have made an extra large draw on his very vivid imagination when he made the statement that "water is now over the larger portion of the city below the hill, and has business completely paralyzed." There is, as every one knows, absolutely barely a grain of truth in that statement, and just why this sensationalist sends out such stuff we are at loss to understand. Statements of that kind are calculated to do the city lasting injury, and the Board of Trade should register a vigorous protest with the publishers of the Times-Star.

Aside from a little inconvenience teamsters and wagons from the eastern part of the county have in reaching the city, and the shutting down of a few enterprises, the present flood has caused no interference to the business of Maysville.

## **State House of Reform Filled.**

LEXINGTON, Ky., April 24.—Superintendent Doak, of the Kentucky House of Reform, near this city, has sent out notices to the County Judges in the State, notifying them that the School of Reform is now crowded and to send no more prisoners here without previously notifying him. There are now 260 prisoners at the House of Reform, which taxes the accommodations to the limit.

President McKinley Thursday made the following appointments: Andrew M. J. Cochran, United States Judge for Eastern District of Kentucky; James H. Tinsley, United States Attorney for Eastern District of Kentucky; S. C. Sharp, United States Marshal for Eastern District of Kentucky.

# **THE COUNTY LEVY.**

It is Fixed at 66 1-2 Cents This Year—a Small Decrease.

**Business Transacted at Thursday's Session of the Fiscal Court—Claims Allowed—Other Matters.**

The Fiscal Court reconvened Thursday and concluded the business of the April term. All the Justices and the County Attorney were present, Judge Newell presiding.

The most important business transacted was the fixing of the county levy. Justices Williams, Grant and Perrine a committee appointed for that purpose, reported the following:

For free turnpikes.....25 cents on \$100  
 For school fund.....15 cents on \$100  
 For general claims fund.....14 cents on \$100  
 For M. and B. S. R. R. bond fund. 8 cents on \$100  
 For infirmity fund.....4 1/2 cents on \$100  
 Total.....66 1/2

The levy was fixed as reported.

The poll tax was fixed at \$1.50

The committee to audit the financial reports found everything correct and its report was ordered recorded. These financial reports were also ordered recorded.

Delinquent taxes were ordered relisted for collection.

Constable Dawson was allowed \$25 for services in the Ramsey case.

Hon. E. L. Worthington addressed the court urging the extension of the Hill City pike to a point near Mayslick. The Superintendents were authorized to expended not exceeding \$3,000 this year to make such extension, but the sum of \$1,600 shall first be subscribed by private parties toward the construction. The estimated cost is \$4,600.

The County Attorney was authorized to institute proceedings to condemn the Cabin Creek and Springdale pike and make it a free road.

Judge Newell and Deputy County Clerk A. F. Wood were each allowed \$10 for expenses to Frankfort to appear before State Board of Equalization.

It was voted to file no exceptions to the sale of the Hughes property to Thos. Ridgely at \$175.

All claims allowed were ordered listed with the Sheriff for payment.

Each Justice was allowed \$12 for attendance at the present term.

Justice Perrine was allowed \$18 for services as committee on bridge work.

Justice Rice was allowed \$50 for attention to smallpox cases in the Lewisburg precinct.

Jailor McIlvain was allowed \$112 50 for care of public buildings.

Justices Farrow and Thompson were allowed \$6 each and Justice Rice \$3 for services on a committee.

The order providing the Turnpike Advisory Board was rescinded.

The County Judge and Turnpike Superintendents were authorized to borrow not exceeding \$20,000 for free pike purposes, this year's levy for free pikes to be pledged for the payment of said sum.

Claims were allowed as follows:

Richard Applegate, road work.....\$ 3 00  
 John Applegate, road work.....2 00  
 Wm. Brownline, road work.....2 00

## **COOKING BY ELECTRICITY.**

**Present Coal and Wood Stoves May Be Entirely Superseded by This Cincinnati Invention.**

[Enquirer.]

An innovation which its inventor claims will revolutionize the present system of cookery has recently been brought forward by William T. Bryan, of this city.

It embraces the doing away with all present culinary apparatus and substituting a system of electrolysis.

Last Saturday Mr. Bryan made a number of interesting experiments at his laboratory on Main street, and the results were surprising and even startling to the persons present.

Taking an ordinary beefsteak he cooked it thoroughly in ten seconds, and when it was removed from the apparatus it was found to be by no means the "tough proposition" the raw material seemed to promise.

A slice of cured ham, submitted to the same electrical treatment, was thoroughly well done in less than half a minute, and the rapidity with which eggs were fried was a revelation to those who witnessed the experiments. The time of cooking was scarcely appreciable, and could not have exceeded three or four seconds. With fruits and vegetables the results were equally startling.

Mr. Bryan's process is not the mere application of electrical heat, such, for example, as generates the warmth on street car heaters, but the direct application of the current itself to the edible to be cooked. The difficulty he has been working with and has overcome is not the amount of heat generated, but the proper distribution. He is making a study of the conductive qualities of various food substances, and is planning appliances for practical use in home and restaurant.

With the present experimental apparatus the edibles to be cooked are laid between two carbon plates, one conducting a positive and the other a negative current. The inventor, however, is not satisfied with carbon as the proper material, and intends to substitute plates of copper, roll-plated with gold. Other metals are impractical, and the gold-plated copper is not only not very expensive, but thoroughly hygienic and imperishable. The electrical current itself leaves no taint, and with the proper metal food-stuffs remain as wholesome as they were before cooking.

Mr. Bryan has made a specialty of manufacturing electrical appliances for medical and surgical use, and in that line has made a study of electrical therapeutics. He expects his invention to improve the science of food preparation, in that the electrical current not only cooks, in the ordinary sense of the word, but also destroys the tough connective tissues of meat and the fibrous tissues of vegetables, thus rendering them tender and palatable as well as more easily digestible and nutritious. He says that, though he has "struck a lead," he has by no means worked out the vein, and promises an early perfecting of appliances that will make steam tables and kitchen ranges a thing of the past.

"My experiments," he says, "were suggested by observing the pickling of meats in one of the Chicago packing houses, where the work is done by electricity a thousand times more rapidly than it could be done in any other way. I set to work and discovered that by increasing the amperage the current disintegrated the connective tissues of tough meat without working other changes. This alone I considered an important discovery, but when upon more mature thought I conceived the idea of combining with the current producing the disintegration one that would cook it thoroughly at the same time I made experiments similar to those you have witnessed, and think that they fully establish the correctness of my theory."

**Hicks Forecasted the Recent Storms.**

[Dover News.]

We thought Prof. Hicks was putting it a little too strong when he forecasted for the last half of April violent storms of rain, snow and sleet throughout the land, and especially from the 15th to the 19th, and running into a reactionary period up to the 23rd, but our own local experiences the latter part of last week, with dispatches from many sections of the country telling of the awful storms of the character named, has convinced us that he was only "drawing it mild." The heaviest snowstorm of the winter struck this section of the country within the limit and kept it up for several days despite the daily government forecasts of "fair and warmer." As Prof. Hicks promises more of the same sort the last few days of April, and a stormy month for May, "better we look a little out."

## BOYD-COLEMAN.

The Minerva Christian Church the Scene of a Happy Marriage Thursday at High Noon.

Mr. Albert K. Boyd, Jr., and Miss Pearl Coleman were married Thursday at high noon at the Minerva Christian Church, Rev. J. A. Sawyer, of Dover, officiating. Mr. Boyd is one of the county's popular young farmers and is a son of Mr. and Mrs. Frank Boyd, Sr. The bride is a charming young lady who has made her home with relatives at Minerva the past year or so and has endeared herself to all who have had the pleasure of meeting her.

Miss Anna Boyd, sister of the groom, was maid of honor. Messrs. Lee Boyd, brother of the groom, Wallace Coleman, of Cincinnati, brother of the bride, and Mr. Harry Smoot were the ushers. After the ceremony the young couple left for a visit to Dayton, Ohio, friends.

## IT'S STILL RISING.

There Seems to Be No End to the Present Flood in the Ohio—River News.

After coming to a stand yesterday at noon, the river again began rising and the marks at 10 o'clock to-day showed a stage of 56.9 feet. The rise last night was about three inches, and this morning three quarters of an inch. It was falling at Huntington this morning.

## ON HIS GRAVE.

This Follower of Ingersoll Requested All His Books by the Agnostic Burned.

BINGHAMTON, N. Y., April 24.—A novel ceremony took place at Floral Park Cemetery, in this city, to-day, when copies of the books written by the late Robert G. Ingersoll were burned over the grave of Marcus A. Miller, who died Monday.

For twenty-five years Miller was a follower of the agnostic, but during the three weeks of illness, which terminated in his death, he professed his firm belief in the doctrine of Christianity, and it was his dying request that the books of Ingersoll be burned over his grave as an explicit public declaration of his absolute repudiation of Ingersoll's teachings.

Mr. Langhorn T. Anderson will next Monday reopen his tobacco re-handling establishment at Dover, and will hereafter handle all his tobacco at that point. Employment will be given to about seventy-five hands.

Messrs. R. A. Masterson of Manchester and Geo. M. Clinger, of this city, have made arrangements to start a brick yard at Dover. The town is to donate them from seven to ten acres of ground, put in a tube well and help defray the expenses of a switch to connect with the C. and O. The capacity will be 150,000 brick a week, and employment will be given to twenty-five hands.

Augusta Chronicle: "James A. Fisher, of near Foster, now in his eighty-second year, raised on one acre of land 1,720 pounds of tobacco, which his son Gates delivered to the Continental Company at this place one day last week and for which he received 7 1/2 cents per pound. Mr. Fisher raised this amount of tobacco himself, besides supervising the twenty-one miles of turnpike in that district, which his report shows was one of the best in the county."

A Raging, Roaring Flood Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds and all throat and lung troubles by J. Jas. Wood & Son. Price 50c. and \$1. Trial bottles free.

### Mental Fatigue of Pupils.

[Exchange.]  
Many educational reformers urge that school hours should be shortened, arguing that pupils get so mentally tired out that they cannot study to advantage in the latter part of the day. An article in the Psychological Review combats this idea, on the strength of a series of actual tests. The multiplication table, lists of words to spell, etc., were given to pupils in the morning and again given to the same pupils toward the end of the day, and it was found that there was no diminution whatever in the ability to do mental work. Dr. Thorndike, the author, contends that the lack of interest commonly seen in schools late in the day is not due to overwork of the pupils' minds but to the fact that the pupils become bored by too much of the same thing. The remedy, he adds, is "not to give the student less to do, but to make it worth while for him to work, to make it interesting."

The New Orleans Picayune of April 15th has this to say of Walker Whiteside in the play named:

Walker Whiteside, with a company so exceptionally capable as to put to blush the average support of the stars of road organizations, presented J. H. Pongrew's romantic comedy, "Heart and Sword," at the Tulane Theatre last night with a vim and dash which would guarantee the success of almost any old play. When it is added that "Heart and Sword" is without a dull moment, that its lines are fairly scintillant with clean-cut wit, its situations interesting, each and every one, and its climaxes so cleverly drawn that thrills are extracted from the most worn-out, it can readily be understood that the opening night of the engagement earned for play and players almost an ovation, and that for the closing week of the season, unusually large houses can be confidently predicted.

# LION COFFEE

A LUXURY WITHIN THE REACH OF ALL!

Watch our next advertisement.

A Tablespoonful to a Cup

—IS THE RULE FOR MAKING COFFEE

BUT ¾ OF A TABLESPOONFUL OF

## Lion Coffee

will give you stronger coffee than a tablespoonful of any other kind. Here is where you save money!

## USE LION COFFEE!

Always insist upon getting it. **LION COFFEE** is absolutely pure, and not a coffee which is glazed or coated with egg mixtures or chemicals in order to hide imperfections.

In every package of **LION COFFEE** you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).
